

Vikash Kumar Kilaniya

Cybersecurity Student | Cloud Security Enthusiast

6375180439 | Vikaskilaniya02@gmail.com | www.linkedin.com/in/vikash-kilaniya-ab144941b

SUMMARY

Computer Science Engineering student focused on cybersecurity, penetration testing and cloud security. Hands-on practice in network scanning and enumeration, web vulnerability testing, traffic interception, packet analysis, Linux permissions and system hardening. Also developing practical cloud and DevOps skills with AWS, Azure and Docker-based CI/CD automation.

PRACTICAL EXPERIENCE

- Performed network scanning and enumeration using **Nmap** in controlled lab environments.
- Practiced web vulnerability testing for **SQL Injection** and **XSS**.
- Intercepted and analyzed web traffic using **Burp Suite**.
- Performed packet capture and traffic analysis using **Wireshark**.
- Practiced Linux permissions, access control and basic system hardening.
- Implemented a **CI/CD pipeline using Docker** to automate deployment.

SKILLS

Penetration Testing	TCP/IP	Kali Linux	Nmap
Burp Suite	Wireshark	AWS	Azure
Cloud	PostgreSQL	MySQL	SQL Injection
XSS	CSRF		

EDUCATION

Bachelor of Technology Computer Science Engineering Pratap Institute of Technology and Science	Expected 2028 India
Senior Secondary Govt Sen Sec School Percentage: 67.50% Board: RBSE	RBSE
Higher Secondary Govt Sen Sec School Percentage: 73.00% Board: RBSE	RBSE

PROJECTS

Network Scanning & Enumeration

Nmap • Conducted host discovery, port scanning and service enumeration in controlled lab environments.

Web Security Testing Lab

Burp Suite • Practiced testing SQL Injection, XSS and CSRF-related web security issues in authorized labs.

CI/CD Pipeline Automation

Docker • Implemented a Docker-based CI/CD workflow to automate application deployment.

STRENGTHS

- Problem Solving** — Analytical approach to networking and security troubleshooting.
- Hands-on Learning** — Practical cybersecurity, cloud and DevOps lab experience.
- Continuous Learning** — Developing skills across cybersecurity, cloud and DevOps.

CERTIFICATES

Cybersecurity / VAPT Certificate

Verification ID: DCSC-VKKJP1025 | Date: 08-05-2026
